Simplify.Secure.Succed.

WHO WE ARE

Stratégie Informatique provides cutting-edge IT services to SMEs seeking to enhance their digital transformation, security, and efficiency.

With a diversified range of training and support services, Stratégie Informatique guides businesses through their digital transformation, enabling them to tackle current technological and managerial challenges.

To achieve this, Stratégie Informatique partners with training centers certified by major market leaders such as Cisco, ensuring services that meet international standards.
All training programs are delivered by a network of highly qualified trainers and coaches, adhering to the highest quality standards.

Among the good reasons to choose us…

- **Certified and Recognized Training Programs**
  Stratégie Informatique offers online training programs accredited by renowned publishers and manufacturers, enabling participants to obtain internationally recognized certifications.

- Support Beyond TrainingIn addition to technical training, we provide personalized support and coaching, fostering skill development and ensuring the integration of know-how within organizations.

- **100% Online Training, Accessible Everywhere**
  All our training programs are delivered exclusively online, offering complete flexibility to learners regardless of their location. Thanks to a modern and interactive platform, participants benefit from a dynamic and effective learning experience.

Expertise validated by market leaders

Official, certified, and high-quality curriculum

Our program is inspired by learning sciences and is based on Cisco's expertise in areas such as networking, cybersecurity, Python programming, and data science.It aligns with digital badges and industry-recognized certifications.

FORMATION VMWARE

Take control of your multicloud environment

Today, 73% of companies use at least two clouds, making a multicloud strategy essential to remain competitive. However, to fully leverage an architecture that spans public, private, and edge clouds, you need a trusted partner.

Learning Path: VMware vSphere

Multi-Cloud Learning Paths

VMW - ICM | 5 JOURS

VMware vSphere: Install, Configure, Manage

Aligned to VCP-DCV

This course, equivalent to 5 days of training, focuses on intensive hands-on training centered on the installation, configuration, and management of VMware vSphere 8, including VMware ESXi™ 8 and VMware vCenter® 8. This course prepares you to administer a vSphere infrastructure for organizations of all sizes.This course serves as the foundation for most VMware technologies in a software-defined data center.

VMW - Data Center Virtualisation | 4 JOURS

VMware Data Center Virtualization: Core Technical Skills

VMW - AA | 5 JOURS

VMW - TS | 5 JOURS

Aligned to VCAP-DCV Deploy

VMware vSphere: Troubleshooting

Targets of the course:

By the end of the course, you should be able to achieve the following objectives:

- Describe troubleshooting principles and procedures.Use the vSphere client, command line, and log files to configure, diagnose, and resolve issues in vSphere.
- Explain key vSphere log files from a troubleshooting perspective.Describe the benefits and capabilities of VMware Skyline.
- Identify network issues by examining reported symptoms and resolve the reported issues.
- Identify storage issues by examining reported symptoms and resolve the reported issues.
- Troubleshoot vSphere cluster failure scenarios and analyze possible causes.
- Diagnose common VMware vSphere High Availability (vSphere HA) issues and provide solutions.
- Resolve virtual machine issues, including migration, snapshot, and connectivity problems.
- Identify issues with VMware ESXi hosts and VMware vCenter Server, analyze failure scenarios, and find solutions.
- Troubleshoot performance issues with vSphere components.

V M W A R E

Learning Path: VMware vSAN

Multi-Cloud
Learning Paths

VMW - vSAN - ICM | 5 JOURS

VMware vSAN: Install, Configure, Manage

During this four-day course, you will gain the knowledge, skills, and tools necessary to plan and deploy a VMware vSAN™ cluster. You will learn to manage and operate vSAN. This course focuses on developing the skills required for common vSAN administrator tasks on day 2, such as managing vSAN nodes, cluster maintenance, security operations, troubleshooting, and advanced vSAN cluster operations. You will develop these skills through instructor-led activities and hands-on lab exercises.

VMware vSAN: Management and Operations

VMW - vSAN - MO | 3 JOURS

VMware vSAN: Plan and Deploy

VMW - vSAN - PD | 2 JOURS

VMware vSAN: Fast Track

VMW - vSAN - FT | 5 JOURS

VMWARE

VMWARE

VMW - vSAN - T | 2 JOURS
VMware vSAN: Troubleshooting

By the end of the course, you should be able to achieve the following objectives:

- **Describe the architectural components of vSAN and their roles.**
- **Explain how the components interact with each other.**
- **Explain the differences between object and component states.**
- **Describe how to use Skyline Health to investigate and help determine failure conditions.**
- **Explain how to use command-line tools to help determine failure conditions.**

Multi-Cloud Learning Paths

VMW - vRealize Operations - ICM | 5 JOURS

Aligned to VCP-CO

VMware vRealize Operations: Install, Configure, Manage

This course is designed for users of both the cloud and on-premises versions of VMware vRealize® Operations™. It provides the knowledge and skills necessary to deploy a vRealize Operations cluster that meets the monitoring requirements of your environment.This course includes advanced features such as customizing alerts, views, reports, and dashboards, and explains the architecture of vRealize Operations. It covers concepts such as certificates, capacity, and costs, as well as workload optimization with real-world use cases. The course also covers troubleshooting using the workshop, predefined alerts, and dashboards, as well as managing compliance and configurations. It also introduces several management packs and introduces VMware vRealize® Operations Cloud™.

VMW - vRealize Operations - Troubleshooting | 2 JOURS

Aligned to VCAP-CMA Deploy and Design

Troubleshooting VMware vRealize Operations

This course is designed for users of both the cloud and on-premises versions of VMware vRealize® Operations™. It provides the knowledge and skills necessary to deploy a vRealize Operations cluster that meets the monitoring requirements of your environment.This course includes advanced features such as customizing alerts, views, reports, and dashboards, and explains the architecture of vRealize Operations. It covers concepts like certificates, capacity, and costs, as well as workload optimization with real-world use cases. Learning Path: VMware Cloud Director

Virtual Cloud Network
Learning Paths

VMW - Cloud Director - ICM | 5 JOURS

VMware Cloud Director: Install, Configure, Manage

This five-day course provides comprehensive training on how to install, configure, and manage an on-premises VMware Cloud Director environment. The course covers key features and functionalities available in VMware Cloud Director 10.4.0 and VMware Cloud Director 10.4.1. You will learn how to provision workloads, create organizations, virtual data centers (VDCs), and catalog services, including predefined virtual machines. You will also explore different networks that can be configured and used by a system administrator and an organization administrator with virtual machines and vApps.

Learning Path: VMware NSX

VMW - Cloud Director - NSX-T | 5 JOURS

VMware NSX-T Data Center: Install, Configure, Manage

Aligned to
VCP-NV

In this five-day course, you will focus on the design, integration, configuration, and management of VMware Cloud Director™ 10.x with VMware NSX-T® Data Center and VMware NSX® Advanced Load Balancer™. You will learn how to create network pools and manage Edge clusters. You will also learn how to create and manage an external network, as well as create and manage VDC network organizations, vApps, and data center groups.This course also covers VMware Cloud Director's interface with other systems, as well as the integration and use of NSX Advanced Load Balancer. You will also learn how to manage inter-VDC connectivity and migrate workloads and networks from VMware Cloud Director with VMware NSX® Data Center for vSphere® to NSX-T Data Center.

Learning Path: VMware Cloud Director

Virtual Cloud Network
Learning Paths

This course also covers monitoring various network objects in VMware Cloud Director using VMware Cloud Director Portal and VMware vRealize® Operations Cloud Tenant App Service™.

Learning Path: VMware NSX

Aligned to
VCP-NV

VMW - NSX-ICM | 5 JOURS

VMware NSX: Install, Configure, Manage

Upon completion of this VMware NSX training, you will have acquired the knowledge and skills necessary to:Virtualize a switched environment through logical switching in VMware NSX Router, dynamically routing between different virtual environments using logical routing.Secure and optimize a VMware NSX environment by using gateway services, firewall configurations, and security services.

VMware NSX: Install, Configure, Manage

VMW - NSX-T - Data Center | 5 JOURS

Aligned to
VCAP-NV Deploy

This course, equivalent to 5 days of training, provides comprehensive instruction on how to install, configure, and manage a VMware NSX-T™ Data Center environment. The course covers the key features and functionalities of NSX-T Data Center offered in version 3.2, including global infrastructure, logical switching, logical routing, network and security services, firewalls, and advanced threat prevention, among others.

VMWARE

VMWARE

VMW - NSX-TO | 5 JOURS
VMware NSX: Troubleshooting and Operations

Aligned to VCP-NV

This course, equivalent to 5 days of training, provides advanced knowledge, skills, and tools to gain expertise in operating and troubleshooting VMware NSX infrastructure. The course introduces you to the workflows of various network and security architectures, as well as several operational and troubleshooting tools to help you manage and resolve issues in your VMware NSX environment.

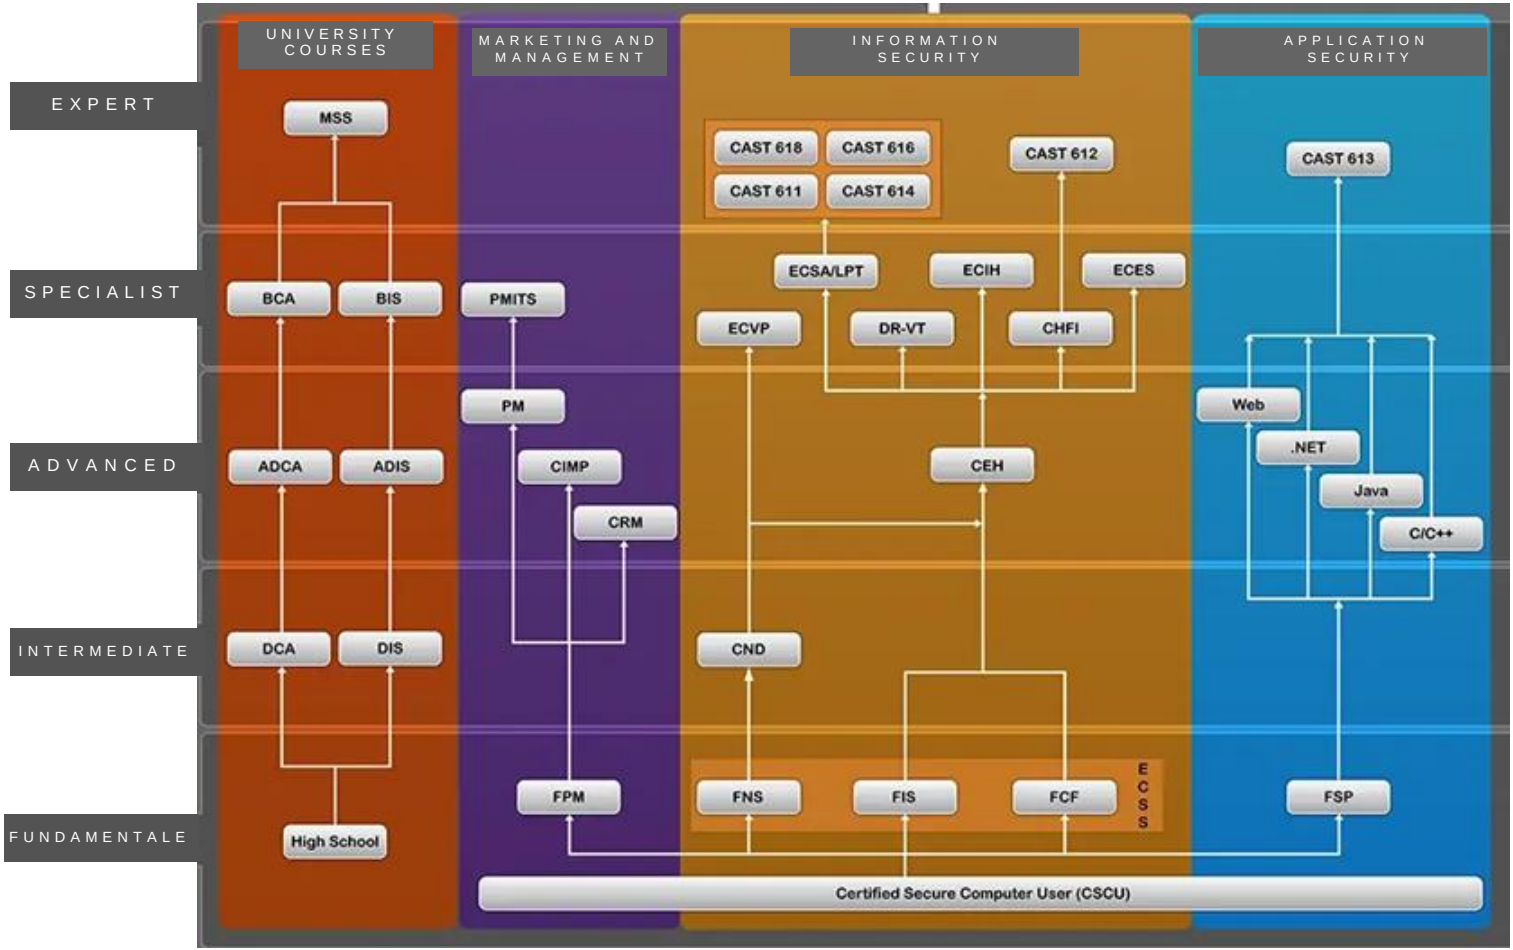
EC-Council

Take your training with Microsoft Certified Trainer EC-Council

EC-Council training courses are designed to help organizations and individuals take preventive measures against malicious attacks by learning to identify and defend the weaknesses in their own networks. The EC-Council portfolio includes certification training on identifying weaknesses and vulnerabilities (CEH), penetration testing (CPENT), best forensic practices (CHFI), information security management (CCISO), as well as many specialized courses.

Practical application is essential, and EC-Council offers hands-on exams for certifications in Ethical Hacking and Pen Testing.

EC-COUNCIL CAREER-PATH



CEH | 5 JOURS | Practical Exam
Certified Ethical Hacker

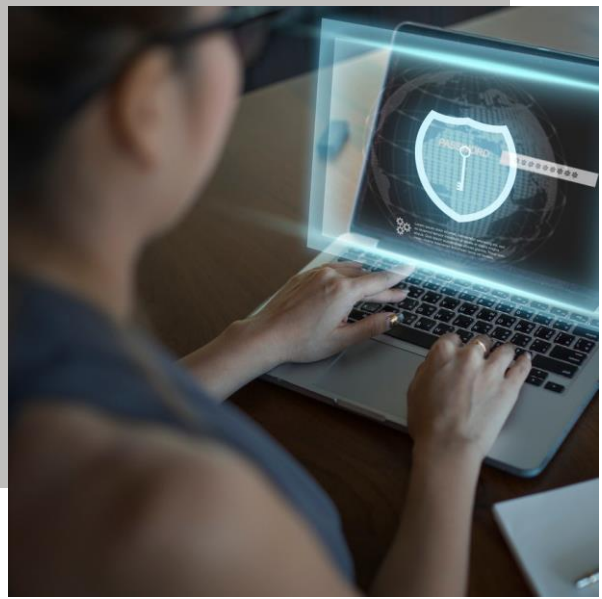
EC-COUNCIL

PALOALTO



Take your training with Microsoft Certified Trainer Paloalto

Palo Alto training courses alternate between theory and hands-on workshops, where you will learn to install, configure, manage, and troubleshoot Palo Alto Networks solutions, gaining the skills and expertise needed to protect your organization from the most advanced cybersecurity attacks.

LINUX

Take your training with
Microsoft Certified Trainer LINUK Foundation

Boost your career with The Linux Foundation's foundational certification. Respected and verifiable certifications from a vendor-independent entity like The Linux Foundation demonstrate the depth of your skills to potential employers, many of whom state they are more likely to hire someone with such a certification. Alternatively, acquire marketable open-source skills. 93% of recruiters report difficulty in finding enough people with open-source skills. Take advantage of this opportunity to gain in-demand skills and prepare for a successful long-term career.

Our Office automation trainings

Mastering the most common software is essential in today's professional life, and a deep knowledge of the IT environment will be an asset for you to highlight.An initial educational recommendation allows us to offer the learner a tailored training program in office automation and IT.A final assessment will measure their progress.

FORMATIONS BUREAUTIQUE

BUREAUTIQUE

Fundamentals

B102 - Débuter avec un PC (Windows, Outlook, Internet, Word, Excel) | 3 JOURS
Découvrir un micro-ordinateur et les principaux logiciels professionnels

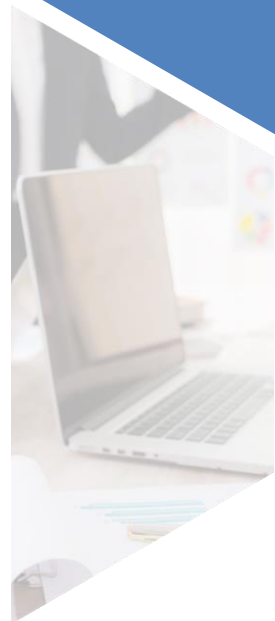
B103 - Débuter avec la suite bureautique Office (Outlook, Word, Excel, PowerPoint) | 4 JOURS
S'initier à Word, Excel, Powerpoint et Outlook

B105-10 - Prise en main de Windows 10 | 1 JOUR
Organiser et personnaliser son environnement de travail

Outlook

B115 - Office 365 - Utilisateur | 2 JOURS
Adopter les nouveaux usages et bénéficier des facilités de travail collaboratif

B120 - Outlook - Messagerie et agenda | 1 JOUR
Communiquer et gérer son temps avec Outlook



B110 - Office - Outlook, Word, Excel et PowerPoint | 3 JOURS

Passez à la vitesse supérieure avec la suite Office

B116 - Microsoft 365/Office 365 et Office 2019 - Les nouveautés | 1 JOUR

Bénéficier des principales nouveautés d'Office

B117 - Microsoft 365/Office 365 - Communiquer et collaborer avec Teams | 1 JOUR

Communicate and transition to collaborative work

B118 - Microsoft 365/Office 365 - Gérer et partager ses fichiers avec OneDrive | 1 JOUR

Naturally adopt the successor to "My Documents“

B119 - Microsoft 365/Office 365 - Gérer et partager ses notes avec OneNote | 1 JOUR

Find the equivalent (and more) of your old paper notes

B140 - Office VBA - Développement d'applications | 5 JOURS

Master the Office programming language

Office

OFFICE

EXCEL

B200 | 1 JOUR
Excel - Introduction

B201 | 2 JOURS
Excel - Basics: Tables, charts, and fundamental calculations

B202 | 1 JOUR
Advanced charts

B203 | 2 JOURS
Excel - Data analysis and PivotTables

B204 | 2 JOURS
Excel - Data analysis and PivotTables

B205-16 | 2 JOURS

Excel - PowerPivot

B206 | 1 JOUR

Excel – Introduction to Macros

B210 | 1 JOUR

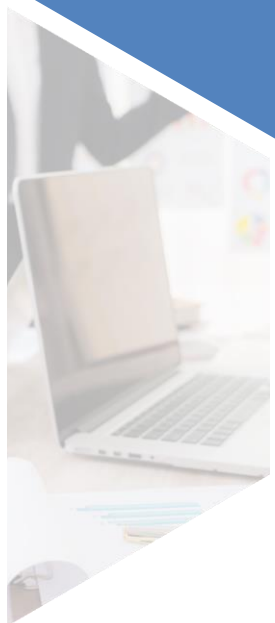
Excel - Skill consolidation for self-learners

B240 | 3 JOURS

Excel VBA – Applications development

B241| 2 jours

Excel VBA – Advanced Application development



B300 | 1 JOUR

Word - Introduction

B301 | 2 JOURS

Word - Basics: Creating and formatting Word documents

B302 | 2 JOURS

Advanced features: Long documents and mail merges

B500 | 1 JOUR

PowerPoint - Introduction

B501| 2 JOURS

PowerPoint - Creating enhanced and interactive presentations

B550 | 3 JOURS

PowerPoint - Preparation for the TOSA "Operational" certification.

B401 | 2 JOURS

Access - Designing a database

B402 | 1 JOUR

Access - Use queries to view and modify your data

B403 | 1 JOUR

Access - Creating forms and reports

WORD- POWERPOINT-BD

V B A

B140 | 5 JOURS
Office VBA – Application Development

B240 | 3 JOURS
Excel VBA – Application Development

B241 | 2 JOURS
Excel VBA – Advanced Application Development
